SKILLS

Languages: C++, Python, C, Java,
Frameworks: HTML and CSS, Bootstrap, NodeJS, React
Tools/Platforms: Kali Linux, Wireshark, Nmap
Soft Skills: Analytical Thinking, Team Player, Adaptability

PROJECTS

Talent-Match – Resume Shortlisting System | [GitHub](#) Jan 2026 - Feb 2026

- Developed a full-stack recruitment platform enabling candidates to upload resumes and recruiters to post jobs with automated applicant shortlisting.
- Engineered an automated resume analysis engine using Python and Django, reducing manual screening effort and improving hiring workflow efficiency
- Architected dual dashboards for 2 user roles - recruiters and candidates - organizing job postings, applications, and status updates in one platform.
- Implemented file upload functionality supporting resume submissions with real-time application tracking across recruiter and candidate interfaces.
- Tech Stack:** Python, Django, HTML, CSS, JavaScript

PhishGuard – Phishing Detection System | [GitHub](#) Nov 2025 - Dec 2025

- Engineered a cybersecurity web application that analyzes suspicious URLs and detects malicious patterns, protecting users from phishing attacks and credential theft in real time
- Implemented URL pattern analysis and threat detection logic using Python and Django, accurately identifying fraudulent websites across test cases
- Designed and integrated a MySQL database to store URL records, scan history, and threat classifications for efficient data retrieval.
- Tech Stack:** Python, Django, HTML, CSS, JavaScript, MySQL

TRAINING

Cipher Schools - Java with DSA Jun 2025 - Jul 2025

- Acquired solid proficiency in Java Programming with DSA through intensive training and hands-on OOP-based coding practice.
- Improved problem-solving and application development skills by implementing structured data handling and logical workflows in Java applications.
- Designed and developed a console-based Java Library Management System to manage book records with core functionalities such as add, update, search, and delete.

CERTIFICATES

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#) Sep 2025
- Build Generative AI Apps and Solutions with No-Code Tools | [Infosys](#) Sep 2025
- Peer-to-Peer Protocols and Local Area Networks | [coursera](#) Aug 2025
- The Bits and Bytes of Computer Networking | [coursera](#) Aug 2025

CERTIFICATIONS

- Privacy and Security in Online social media | [Nptel](#) Oct 2025

ACHIEVEMENTS

- Gained hands-on experience with cybersecurity tools such as Kali Linux, Wireshark, and Nmap. Jun 2025
- Participated In Hackverse Hackathon and Qualified for Round 2 Apr 2024

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.28 August 2023 - Present

Deeksha Junior College Vizag, Andhra Pradesh
Intermediate; Percentage: 80.1% April 2021 - March 2023

Narayana E-Techno School Vizag, Andhra Pradesh
Matriculation; Percentage: 100 % April 2020 - March 2021
